🔗 Coding Profile

Education

B.Tech, Vishwakarma Institute of Information Technology, Information Technology 2023-2027

- CGPA: 9.01/10

Experience

Recode Hive, GSSOC 2025, Contributor Aug'25 - Oct'25

- Redesigning UI/UX for Recode Hive website, implementing modern design and responsive components across pages to enhance user experience. [Merged 5 PRs.](#)

GeeksForGeeks VIIT Student Chapter, Web Developer Aug'24 - Mar'25

- Collaborated in an agile team to build and enhance the official chapter website.
- Managed event registrations for 100+ students via the club website for campus events.

Projects

Gradus – AI-Powered Personalized Learning Platform [Github](#)

- Curated 100+ personalized learning pathways using AI-driven recommendations, enabling structured, distraction-free study plans with podcasts.
- Implemented topic-specific revision plans and engagement analytics for 200+ videos, delivering data-driven personalized learning insights.
- Technologies Used:** Next.js, Node.js, Express.js, Firebase, Redis, Gemini 2.0, Redux.

DevConnect – Developer Networking Platform [Web](#)

- Built a developer matchmaking platform enabling 200+ swipe-based interactions and 50+ real-time connections for project and hackathon collaborations.
- Designed scalable REST APIs with Redux-managed frontend, trimmed unnecessary re-renders by 30–35%.
- Technologies Used:** ReactJS, NodeJS, Express.js, MongoDB, Web Sockets, Tailwind CSS

SpeedyServe – Fast Meal Delivery System [Web](#)

- Reduce student wait times from 20+ mins to under 2 mins by optimizing real-time queues.
- Building an analytics dashboard for canteen staff to track live orders, performance metrics, etc.
- Technologies Used:** Kotlin, Node.js, Express.js, JWT, Razorpay API

Achievements

Winner – Smart India Hackathon 2025: Problem Statement: Open Innovation - Smart Education.

Data Structures & Algorithms: Solved 375+ questions on **Leetcode and GeeksForGeeks** - (Max rating - 1554).

Winner – Hackmatrix, IIT Patna: Ranked 1st among 850+ participants in a national-level hackathon.

Technologies

Languages: JavaScript, C++, Java, SQL, Python, Kotlin, C, HTML, CSS

Frameworks: ReactJS, Next.js, NodeJS, Express.js, Socket.IO, Tailwind CSS, Bootstrap

Tools / Databases: Git, Firebase, MongoDB, Redis
